

# Removing Attendance from Grade in Blackboard

Blackboard has the ability to easily track attendance and by default, it sets up a grade column in the Grade Center. This set of instructions will walk you through the process of removing any grade calculation into the overall grade and removing this column in your Grade Center. This process will also remove the students' ability to see their attendance records.

---

## Guide Sheet

Removing Attendance from Grades and Visibility.pdf

 Blackboard, by default, counts attendance in the grade for the student.
